

Maryland Commission for Men's Health:

The Maryland Commission for Men's Health was created in 2005 by the Maryland General Assembly. House Bill 681 (Health-General-Article § 13-2308-§ 13-2308, Annotated Code of Maryland) is charged with administering and promoting public awareness of men's health issues in Maryland.

At this time the Commission is finalizing its membership and hopes to begin in earnest in late winter 2007.
